

Leadership Champaign County requires 100% participation

A large part of the learning that occurs is based on strong discussions from the entire group. The calendar is set well in advance and each session is important toward the leadership training, therefore only one emergency absence will be allowed. If needed, arrangements can be made for a participant to graduate with the next Leadership Class. Attendance and participation is reported to the sponsoring employer.

What is Leadership Champaign County?

Participants will gain in-depth and “behind the scenes” knowledge and insight into matters of Leadership, Government, Education, Health Care, Social Services, Local History, Economic Development, Quality of Life, and more. In addition, participants will gain an understanding of their marketplace, community, and fellow citizens in a way otherwise unavailable. Through group discussions, hands-on challenges, and tours of facilities throughout the county, Leadership Champaign County will help participants become a much more informed part of the community. Participants also work with fellow classmates on community projects to enhance Champaign County.

How does Leadership Champaign County work?

Leadership Champaign County is a community development program designed to help those who live, work, and play in Champaign County to know more about the community. Participants from diverse backgrounds and experiences will have the opportunity to broaden their perspectives, enhance their leadership skills and learn from others who are active in our community. The program is for those who wish to gain the knowledge, skills, and experiences needed to be effective leaders in both our community and their professions. Those attributes will then allow participants to better address community needs and opportunities. The goal of the program is to develop informed, civic-minded leaders for Champaign County.
